2. Terms and objectives of EIF EGF Investment

Policy rationale and strategic objective	<p>The objective of the SLF product is to support Target Final Recipients facing persistent medium-term liquidity shortfalls resulting from the economic downturn linked to COVID-19.</p> <p>The main aim of the SLF is providing alternative sources of financing and widening the availability of non-bank financing to Target Final Recipients. SLF will apply a selective investment approach and invest directly or indirectly in non-bank financing mainly (i.e. more than 50% of the total invested amounts) in form of non-distressed senior or unitranche (secured or unsecured) loans/bonds.</p> <p>Once seen as a relatively niche offering, European private credit is now a recognised source of financing which can be tailored to meet the needs of Target Final Recipients and can be adapted to longer-term financing needs in light of the current market situation. In specific, this product will support Financial Intermediaries (managed by first time, emerging or established teams):</p> <ul style="list-style-type: none"> (i) in their fundraising period to achieve first closing or (ii) in their subscription period to have subsequent closings and reach targeted or adequate fund sizes in case of limited investor interest as result of the crisis following the COVID-19 pandemic. On a case-by-case basis, the EIF can make EIF EGF Investment to Financial Intermediaries under this product conditional to being accepted at the end of the Financial Intermediary's fundraising period in full or in part, depending on third-party investors' interest during the subscription period. By doing so, the EIF will provide liquidity enabling funds to reach the fund size required to execute their investment strategies in case of limited investor interest, without crowding out private investors. <p>Via SLF, the EIF can selectively take increased stakes in Financial Intermediaries and make larger commitments (in some cases above 50% but always subject to requirements as per Investor Base of the Financial Intermediary).</p>
Targeted stage	<p>In terms of stage, the facility is expected to focus more prominently on Target Final Recipients in:</p> <p><input checked="" type="checkbox"/> Growth and expansion, including expansion through, when necessary, financing for acquisition of a business, replacement / transition capital for growth (excluding strategies intended for asset stripping).</p>
Duration of EIF EGF Investment	<p>The manager of the Financial Intermediary shall not, without EIF's prior written consent, make or propose to investors in the Financial</p>

	Intermediary to vote upon any amendments in order to extend the term of the Financial Intermediary beyond December 2036.
Investor Base of the Financial Intermediary	<p>At least 30% of total commitments to Financial Intermediaries, excluding the EIF EGF Investment are made by independent private investment sources (as set forth below):</p> <ul style="list-style-type: none"> • EIF/EIB own resources, invested at own risk and excluding public parts of mandates • Financial institutions (investing at own risk and from own resources) • Private endowments & foundations • Family offices & Business Angels (including joint investment vehicles set-up by/with Business Angels) • Corporate investors • Insurance companies • Pension funds • Private individuals • Academic institutions (including universities and public and private research institutions) • National promotional banks/institutions investing own resources, for their own risk, and on commercial terms • fund-of-funds provided that they invest exclusively on commercial terms and are managed or advised by a privately held asset manager, save that: <ul style="list-style-type: none"> - any fund-of-funds fully funded by state budget resources shall not be considered an independent private investment source; - where a fund-of-funds is partially funded by state budget resources, in pari passu with private resources invested on commercial terms, the investment made by such a fund-of-funds into a Financial Intermediary shall be considered as an independent private investment source pro rata to the amounts invested by the fund-of-funds which are funded by private resources. <p>Other categories of investors may also be considered private investment sources (e.g. sovereign wealth funds or fund-of-funds) where the resources invested are generated by commercial activities and are invested on commercial terms.</p> <p>For the purpose of the above provisions, state budget resources shall include European Structural and Investment Funds</p> <p>In assessing compliance with the above requirements, the EIF may rely on a declaration, representation or undertaking from the Financial Intermediary</p>
